

Bobcat of Durham East

Owners Marcel & Frank Zwetsloot stand with Bobcat Sales Specialist, Dave Guttin.

“...lots of innovation in the last couple years...”

Since 2004, Baseline Custom Fabricating Ltd. has been providing custom fabricating services to clients within the GTA and Ontario for construction, telecommunications, commercial structural steel, equipment steel, residential needs but mainly they have industrial accounts. Marcel proudly stated that they fabricated the Toronto International Film Festival light up

signs for example. Just like their motto “old school quality through modern technology” implies, they always strive to stock their 13,000 square foot facility with the latest equipment, in order to offer top quality services for metal fabrication. They have built their customer base through hard work and determination - something

which has allowed them to become the company they are today. “We get a lot of return customers/contractors,” states Marcel. “We let the contractor know we have our own equipment. One person to do the job instead of us designing and having someone else bring equipment to dig holes for example and then when we get there, it’s not

the right size holes.” “We own a Bobcat® E50 excavator, a S650 skid steer loader and a V417 Versahandler. We use the Bobcat machines for lifting heavy steel, site clean-up, sandblast, snow removal, forks and moving material. We have an auger attachment to drill our own holes.”

“We like Bobcat machines because they are well built, lots of innovation in the last couple of years, comfortable, and for refinements. Pricing wise, good value for your money.” “We have been dealing with Bobcat of Durham East for the past 3 years. We have a great relationship with them. Dave Guttin, Sales Specialist

for Bobcat of Durham East, is a nice guy. They are very local for service and parts. They also save me money as I can rent attachments from them on an as per job basis, instead of having to buy them all. We also do work for Bobcat of Durham East so it has become a mutual business relationship.” Thanks Marcel.
